Recommended Features

Ready for Bluetooth® Adapter | Phone Book Access Profile | Switching 2 Cell Phones | Front AUX AUDIO | USB G3 iPod/iPhone | SAT Radio Ready | HD Radio® Ready | Steering Wheel Remote Ready | Hi-Volt Line Output

Key Benefits

The front USB port allows easy playback from iPod/iPhone and other USB devices. The 2-way control for iPod/iPhone lets you operate from either your iPod/iPhone or on the headunit. You can quickly search songs by a simple operation using the menu key and the volume knob plus the Accelerated Search. Enjoy superior sound delivered by 24-bit DAC and MOS-FET power amp, as well as reduced noise with the gold-plated high voltage pre-output. With the Separated Variable-Color, you can customize the keys and display from 30,000 x 30,000 color combinations. Other features include Front AUX-IN, HS-IVi tuner, and 3-band parametric iEQ. You can also enjoy Bluetooth® Wireless Technology, HD Radio®, and SAT Radio with optional devices.

USB Audio for iPod/iPhone

Connect your iPod/iPhone to the unit's USB port with the iPod/iPhone dock connector, and enjoy music in clear, digital sound with full-speed transfer. Your iPod/iPhone's battery will be charged during connection.

2-Way Control for iPod/iPhone

The 2-way control for iPod/iPhone lets you easily operate on your iPod/iPhone or the headunit. Just hold down the BACK key to switch operation. The basic functions can be controlled on the headunit even during iPod/iPhone mode. The song information is shown on the display for both modes.

* Compatibility with 2-way control for iPod/iPhone differs by model.

JVC MOBILE ENTERTAINMENT

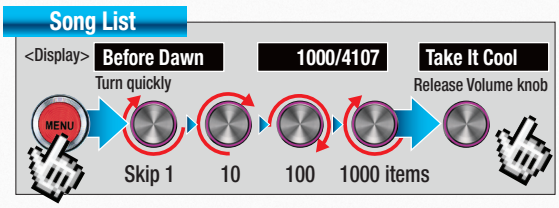
KD-A615 USB/CD Receiver with Front AUX

J-BUS Terminal

You can connect JVC's optional adapters to this terminal. Available functions depend on the headunit.

Accelerated Search

If you turn the volume dial quickly while displaying song lists on your iPod/USB/CD, the number of items skipped will gradually accelerate from 1, 10, 100, to 1000.



3-Band Parametric iEQ

Adjusts the center frequency, bandwidth and levels at each of 3 bands. Plus 5 factory and 1 user EQ presets. With Pro mode, the EQ can customize the sound for your ears.

Control Range	Bass:	60Hz, 80Hz, 100Hz, 200Hz
	Mid-range:	500Hz, 1kHz, 1.5kHz, 2.5kHz
	Treble:	10kHz, 12.5kHz, 15kHz, 17.5kHz
Level		-6~+6dB
Q (band with)		0.75~2.0Q

High Voltage Line Pre-Output Terminals

The high voltage line pre-output provides high-quality signals for flexible settings.

5.0V
Line Output

Separated Variable-Color

Over 30,000 colors are available to match your car's illumination. Separate colors can be set for the keys and display, providing stylish coordination and easier operation.

Separated Variable-Color

Over 30,000 Display Zone

Over 30,000 Control Zone

Front AUX Input

Easy connection for digital audio players and other devices.

USB Connection (G3 iPod/iPhone Audio)

Enjoy digital audio from iPod, iPhone or USB devices at full-speed transfer (USB 2.0). You can also charge your iPod/iPhone.

* USB Playback not supported for NTFS formatted devices. When partitions are created, only the first partition can be read. (Maximum current supply 0.5A)

Steering Wheel Remote Ready

With an optional adapter, you can control an advanced JVC headunit from the steering wheel remote control that comes factory standard with your car.
